The NWT Mining Heritage Society is a group dedicated to building a mining museum in Yellowknife. It was officially incorporated in July 2002.

The group owns several buildings at the old Giant Mine and plans on renovating the recreation hall first, followed by buildings at the A-shaft area.

The society has also begun development of outdoor displays at Giant, surrounding the public boat launch site.

## Updates

Regular maintenance and repairs of our buildings will continue for the foreseeable future until such a time as we can raise the necessary money to begin major renovations to our museum buildings. A government grant to conduct some **foundation repairs to the recreation hall** building is being investigated.

Our **office will be relocating** to the ground floor of the Northern Frontier's Visitors Center as of September 1<sup>st</sup>.

We now have 14 corporate members, and would like to thank them for their generous support. We would also like to thank members who staffed the society's table at the Airshow this year.
