

YELLOWKNIFE HERITAGE TRUST FUNDS

Did you know that the Yellowknife Historical Society has two trust accounts? These trust accounts are:

The NWT Mining Heritage Trust Account - Established to provide funds for the operation and maintenance of Yellowknife Historical Society facilities.

The Water Gibbins Memorial Trust Account - Established to provide funds for the care and maintenance of the Walter Gibbins Mineral Collection Display currently in the Greenstone Building and for geological education and awareness in the NWT.

The Yellowknife Community Foundation administers these funds for us. The capital is maintained in perpetuity while the interest generated can come back to the society.

These are two great ventures that deserve your support. Your donations to these trust accounts are tax deductible.

Would you like to leave a legacy to one of these trust accounts? You can do this with an insurance policy payable to the fund you choose, with the Yellowknife Historical Society as the beneficiary. The premiums you pay on this policy constitute a donation to a charity for income tax purposes and are tax deductible. That means you get a tax deduction for your regular premiums on this policy.

For further details contact the Yellowknife Historical Society coordinator.
